Summary

Full-Stack and Android Developer who enjoys turning ideas into working products, from system design to deployment. Proficient in React, Node.js, Kotlin, and Firebase, with strong hands-on experience in REST API architecture, database design, and secure authentication systems. Comfortable owning a project end-to-end, whether it is a marketplace platform, a deployment tool, or an Android app. Looking for a full-time Software Engineer role to keep building products that solve real problems.

Skills

Languages	JavaScript, Kotlin, Python
Frontend	React.js, HTML5, CSS3, XML UI Design
Backend	Node.js, Express.js, REST APIs, MongoDB, Firebase (Auth/Firestore)
Android	Kotlin, Android Studio
Tools & DevOps	Git, GitHub, Docker, Jenkins, GitHub Actions

Projects

HunarHub

[Live Demo](#)

- Full-stack marketplace with role-based auth across three account types (customer, entrepreneur, admin); React + Vite + Tailwind frontend, Node.js/Express + Firebase Firestore backend.
- Built complete CRUD listings, order lifecycle management, reviews, earnings dashboard, and an admin verification panel.

DevDeploy Agent

[Live Demo](#)

- Autonomous AI-powered deployment agent automating repository setup, build, and deployment workflows using LLM-driven decision-making integrated with GitHub and Vercel APIs.
- Built for Agentic Arena 2026 Hackathon (Open Innovation theme) on Unstop.

Deploykar

[Live Demo](#)

- PaaS-style deployment dashboard enabling GitHub-authenticated users to deploy projects directly to Vercel with real-time deployment status tracking, using GitHub OAuth and Firebase Firestore.

Work Experience

Full-Stack Developer Intern, Unified Mentor

2026

- Designed and built **HunarHub**, a full-stack marketplace platform connecting local micro-entrepreneurs with customers, from architecture through deployment.

Frontend Developer Intern, Aruvai Institute of Learning – Tenkasi

Dec 2025 – Jan 2026

- Developed responsive web interfaces using HTML, CSS, and JavaScript with cross-browser compatibility optimization.
- Designed and deployed user-focused UI components using Git-based deployment workflows.

Java Developer Intern, CodeAlpha (Online)

Jul 2025 – Aug 2025

- Developed Java-based project modules following structured software development practices.
- Gained practical exposure to real-world development workflows and coding standards.

Education

2023 – 2027	B.Tech – Information Technology at Tamilnadu College of Engineering	(CGPA: 7.72)
2023	HSC (12th) – State Board	(80%)
2020	SSLC (10th) – State Board	(Passed)

Certifications

- Generative AI in Action – IBM SkillsBuild (Sep 2025)
- MERN Full Stack – Unstop (2026)
- MongoDB – Unstop (2026)
- GenAI-Powered Data Analytics Job Simulation – Tata (Forage, Jun 2026)
- Data Analytics Job Simulation – Deloitte (Forage, Jun 2026)
